28 Jan. 2021	Reclaimed Timber Sub-Working Group Meeting 1/2021

Progress and outcomes of the activities

Key issues	Progress and outcomes
Guidelines for Confirming the use of Recycled Materials in Certain Products	- As Product Scope of Thailand's VPA will exempt recycled paper and pulp products and FLEGT/THA-TLAS licence will not be issued to the products, the working group will draft guidelines for declaring and verifying recycle status
Guidelines for Self-Declaration of Timber on Private Land	- Further improve the guidelines based on recommendations from the regional stakeholder consultation
Guidelines for Self-Declaration of Timber on Public Land	- The guidelines will be developed from private land guidelines
Supply Chain Control of Reclaimed Timber	- Study on the gaps in the existing supply chain control was completed and will be a base for developing the supply chain control concept
